- HTML5 / CSS3 / SASS
- JavaScript / TypeScript
- React / Redux
- Next.js
- MongoDB / Mongoose
- Node.js / Express.js

Another tools:

- Sanity
- Stripe
- Firebase
- Vercel

Soft skills:

- Figma
- Git & GitHub

EXPERIENCE

February 2023 – June 2023

software engineer intern, Connect-link

where I developed the user interface and front-end logic for their web app. My main focus was on improving the code quality and reducing latency while sharing my ideas. I primarily worked with JavaScript, SCSS, Next.js, Firebase, MongoDB, and Node.js.

April 2023 – June 2023

Software competitor, Lighthall

I have achieved SESL1-level 5 and SESL2-level 4. I have worked on a total of 10 projects, including 4 individual projects and 6 team projects, where I primarily used React, Node.js, Firebase, and MongoDB. You can find more information about my competition experience on [my Lighthall profile](#).

PROJECTS

Crypto tracker (TypeScript, React, Redux, Firebase)

This project involved complex topics such as user authentication, currency watch list addition, and endpoint management using Redux Toolkit.

Random questions game (JavaScript, React, SASS)

My first React Project wasn't willing to share but it turned out it was good, so I included it in my resume.
